Maths Through the Movies

This week in school we have had a Maths Through Movies week. This meant that each class took a movie and looked at some of the maths problems within excerpts from it. Ruby Class have looked at Bugs Life and have completed various activities that included counting, comparing, ordering and sorting various bugs while also improving their fine motor skills by using tweezers to collect them. Emerald Class looked at Ice Age, Dawn of the Dinosaurs where they used tally charts and completed pictograms to display their data. Sapphire Class found their maths in Finding Nemo to order various sized numbers and to round them. Diamond Class used the film Monsters Inc to solve as many types of reasoning and problem solving question types as they could. Who knew maths could be so much fun!
